Hirafu Village Quaint Log Cabin

Situated in one of the most sought after locations in the lower village, the cabin sits on a 330 square meter corner site that will keep its charm due to the 'no build' zone that runs down the backside boundary.

The chalet is a must-see, with designer touches throughout the cabin. Small, but it packs a big punch and would work for a couple looking to get some immediate usage while planning a new build in the future.

As a corner site, and with the protected left hand boundary, this property would lend itself to a new luxury chalet build set over 3 floors with a GFA of around 500 sqm. The views from the property to Mount Yotei are excellent. There are not many quality sites within the Hirafu village now where you can guarantee protected views, and this is certainly one of them.
