

TOYA STUNNING DEVELOPMENT SITE

Niseko Realty are pleased to offer this one of a kind large development site in Lake Toya. Perched just above the lake off route 230 the location could not be better.

The land is a short drive into the main township and a short trip through the tunnel from here takes you to the coast and a even bigger town with all the service you need. You are also very close to the famous Windsor Hotel and golf course along with a fine selection of eateries and some amazing organic farms.

Lake Toya

Land 80,081 m2

The photos speak for themselves this would have to be one of the more stunning development sites available in Lake Toya. From here you have a full view over the lake and a birds eye view of the famous Lake Toya fireworks display.

The land lends itself for a group of friends to build a few chalets or a astute developer to carve up the land into some lifestyle blocks for future sales.
