

RESIDENTIAL LAND NISEKO TOWN

Situated just off the main street, this land plot sits in a peaceful enclave, next to the Kaributo Shrine. Flat and square-shaped, the land is ready for a build. A big advantage is that it has access to all of the town's utilities like water, sewerage and electricity.

This rare plot is also a stone's throw away from the post office, convenience store and cafes. The town hall and school are also within a 1 kilometer radius.
